

FlightSafety Academy

Five Decades of Training Excellence

Ready to Help
You Meet
Your Flight
Crew Goals

FlightSafety Academy – a world-leading provider of ab initio training – serves as a reliable and highly respected resource for a growing number of airlines around the world. We deliver graduates with excellent pilot skills, fully trained to fly advanced technology aircraft safely and efficiently in an increasingly complex and crowded air traffic environment. We provide the finest professional training through a total commitment to excellence in all phases of instruction, from classroom to ground-based training to generous flight time. Our superior curriculums stress safety, decision-making, crew resource management, hands-on experience and a strong classroom educational foundation. Nearly 20,000 pilots have received sound fundamental training from the Academy during our almost 50 years in business. Cadets benefit from the same high level training whether they are ab initio or developing pilots. After graduation, our cadets have gone on to crew or command aircraft in every corner of the world's aviation community.

FlightSafety – The Training Leader FlightSafety International has been training professional pilots since 1951 and today offers more than 3,500 individual courses for 135 different fixed- and rotor-wing aircraft, taught by more than 1,800 highly experienced and qualified instructors. We operate 300 advanced-technology simulators – the world's largest fleet – serving customers from 167 countries in a worldwide network of 40 Learning Centers.

FlightSafety Academy: Our Graduates

We embrace our founder's conviction that *"The best safety device in any aircraft is a well-trained crew."* FlightSafety Academy retains the most dedicated and professional staff, offering superior safety-built curriculums. We employ a full spectrum of advanced training tools, including more than 85 dedicated training aircraft.

More than 18,000 FlightSafety Academy graduates now fly for or manage 62 airlines in 100 countries.

Every cadet graduating from the Academy leaves equipped with all the tools necessary to be a successful and valued flight deck crew member. We designed our professional pilot initiatives; not only to train the best pilots but to also provide a defined and stable professional career advancement track through Academy Career Pilot positions.

FlightSafety Academy: Our Training Commitment

We are committed to upholding a long-standing tradition as one of the most valuable sources for new-hire professional pilots. Based on regular feedback from airlines, corporations and governments, we successfully maintain that tradition.

Graduating cadets possess the professionalism and discipline learned only through the kind of demanding curriculums we deliver. Cadets receive primary and advanced licenses and endorsements while also proving their ability to be dedicated students.

A Range of
Safety-Built
Professional
Curriculums

FlightSafety Academy: Current Programs*

- Career Pilot Development Curriculums
- Courses developed in association with airline clients to better meet their specific training expectations including:
 - › Integration of airline approved MPL modules
 - › Access to in-aircraft turbine training
 - › Incorporation of additional specialized training equipment
- Full spectrum of licenses and endorsements from PPL to ATPL
- The Pilot Career Achievement Strategy, PCAS
- Self-sponsored training meeting the same high caliber standards as that provided to airline and government sponsored cadets.

We are happy to discuss any unique requirements you may have to assist in your training goals.

*Not all programs listed above are accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC).

FlightSafety Academy: Experienced Instructors

Our graduates' success would not be possible without the professionalism and commitment of our staff of experienced and well-trained instructors.

Our fleet of dedicated training aircraft, multi-media classrooms, flight training devices and the ATC communications simulator help illustrate the Academy's commitment and dedication to train future leaders of the world's aviation community.

World-Class Training. Worldwide Reach. FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. The company provides more than a million hours of training each year to pilots, technicians and other aviation professionals from 167 countries and independent territories. It delivers ab initio training at FlightSafety Academy in Vero Beach, FL. FlightSafety operates the world's largest fleet of advanced full flight simulators at Learning Centers and training locations in the United States, Australia, Brazil, Canada, China, France, Japan, Norway, South Africa, the Netherlands and the United Kingdom.
